SUMMARY

Aspiring Full Stack Software Engineer with experience in JavaScript, React.js, and Node.js, focused on building and maintaining web applications. Strong understanding of frontend–backend integration, REST APIs, and modern development practices. Comfortable working in fast-paced environments, taking ownership of tasks, and delivering reliable, scalable solutions. Motivated to grow in application architecture and system scalability.

EXPERIENCE

WebDevelopment Intern
Ediglobe 📍**Remote** 📅February 2025 – March 2025

- Contributed to the development and enhancement of web-based applications.
- Analyzed functional and business requirements to support feature development.
- Fixed bugs and optimized application performance, reducing reported issues by approximately 30%.
- Followed defined development, testing, and documentation standards while working with cross-functional teams.

WordPress Developer
UNB Infotech 📍**Full-time, Dehradun** 📅July 2023 – June 2024

- Developed and maintained the Prime Uttarakhand website.
- Handled website configuration, plugins, and content updates.
- Implemented SEO and performance optimization, increasing organic traffic by around 40%.
- Worked closely with non-technical clients to gather requirements and deliver solutions.

PROJECTS

Real-Time AI Interviewer
Full Stack

- Developed a full-stack web application using React, Node.js, Vapi, and Google Gemini.
- Implemented AI-driven voice interviews with real-time interaction and response handling.
- Built dynamic interview generation and backend workflows.
- Integrated Firebase Authentication and Firestore for secure user management and data storage.
- Implemented API integrations and responsive UI/UX aligned with full-stack development standards.

MERN E-Commerce Platform
MERN E-Commerce

- Developed a full-stack e-commerce application with user authentication, product management, and Stripe payment integration.
- Built an admin dashboard for managing orders, products, and promotional codes.
- Designed a responsive user interface using React Bootstrap with full mobile compatibility.
- Implemented Redux for efficient state management across multiple UI components.
